

Terms and Conditions:

VISA, MASTERCARD or AMERICAN EXPRESS credit card

We guarantee that each of the transactions performed on **fetalbcninteractivecourse.com** is 100% secure. All operations that involve transmission of personal or banking data are carried out using a secure environment.

fetalbcninteractivecourse.com uses a server based on standard security technology SSL (Secure Socked Layer). All the information that you transmit us travels encrypted through the network. (If you would like to know more, please visit our Secure Payment section).

Likewise, data regarding your credit card is not registered in any database but goes directly to the Bank's POS (Point of Sale Terminal).

In addition, in an effort to provide greater security to credit card owners, we have incorporated into our payment gateway the secure payment system called CES (Secure Electronic Commerce). In this way, if you are the holder of a "secured" card, you can always make payments with a VISA, MASTERCARD or AMERICAN EXPRESS card in our store.

In the event that your card is not attached to this payment system, **fetalbcninteractivecourse.com** will only accept payment by VISA, MASTERCARD or AMERICAN EXPRESS credit cards from clients with previous accepted payments, considered reliable.

In both cases, when paying with VISA, MASTERCARD or AMERICAN EXPRESS cards, the following information will always be requested: card number, expiration date, and the Validation Code that matches the last 3 digits of the number printed in italics on the back of your VISA, MASTERCARD or AMERICAN EXPRESS card, thus offering more guarantees regarding security of the transaction.

Important: Credit card fraud is a crime, and **fetalbcninteractivecourse.com** will take legal action against anyone who performs a fraudulent transaction in our online store.

Please note that in any case we do not perform manual activations on holidays or non-working days (Saturdays or Sundays).

For the purpose of these Conditions, it will be understood that "delivery" of the Interactive Course 2.0 will be completed at the moment we send the activation email to the email account that you have previously indicated. It must be taken into account that, for reasons beyond our control, there are times when email services such as Hotmail or Gmail send our emails to the Junk or Spam folders. You should accept our email as a valid email to avoid this and for further communication.
